Spring 2009 Newsletter

April 28, 2009

Hello,

Our entire Heartwood staff is excited that spring is finally here.

We are in the midst of reaching out to contractors and homeowners to remind you to let us help you reduce costs on your upcoming construction, home repair, deconstruction, and remodeling projects. Construction and demolition (C&D) waste is a costly and needless addition to our landfill. By preplanning before you start, you can save big on fees for disposing of excess material. By sorting useable materials from land fill waste, you can make a significant impact on the life of our landfill. Heartwood ReSources offers tax deductible receipts for your donated materials.

As with spring, our Art Gallery is blooming. To check out our inventory, stop by our store or visit our Web site at www.heartwoodresources.org.

The past couple months have been extremely busy in our store. People are finally realizing they can often save money by shopping at Heartwood before they purchase new items. It's amazing the great deals you can find. With this increase in customers, your donations are even more important, so please keep them coming. Thinking about starting a church? We can help. We just happen to have pulpits and pews to help you get started. Or, maybe you give lectures. The pews come complete with microphones, and ready to give you that professional edge.

NEWS FLASH

There's still time to capture a piece of history. We have one remaining rail from the historic Winchester Bridge. It's 13' in length. This unique item will make a great conversation piece to share with family, friends, and neighbors.

Deconstruction Services

Heartwood offers deconstruction services as a wise alternative to removing structures and tear outs. In preparing for remodels, any amount of reclaimed material can be donated for a tax deductible receipt. We are known for leaving an exceptionally clean job site. And, we are the only company in the Roseburg area that can offer a tax deductible receipt for your salvaged materials. So what are you waiting for??? Call Ray at 541 643-3932.

What's New at Heartwood

Heartwood is moving into the fast lane. Yes, we now have high speed Internet access through Douglas Fast Net. This will enable our staff to do more with technology and help us market our products to a wiser audience.

We hope to see you soon.

Marla Zoeter, Assistant Store Manager
