

Heartwood ReSources

November 2009 Newsletter

Help Keep Your Heating Costs Low

To all of our faithful customers and new shoppers, as winter approaches, it's time to start doing your weatherization projects. We've been busy selling insulation, windows, and doors, and our stock is constantly changing.

Great Items Are Coming In... Don't Miss Out!

Our Decon Crew is working on another teardown in Roseburg. Everything from this project is high end and as the word is getting out, the new merchandise is going out nearly as fast as it's coming in. We're down to trusses, chipboard, and bare structure, which means more lumber is coming in. Our Decon Crew is highly regarded and elite in their craft. If you need Decon services, be sure to contact Heartwood and ask to speak to Ray.

As always, we offer a good supply of showers, bath vanities, lighting, gas furnace with air, entry door with side lights, double-full light doors, and double interior doors.

Looking for Craft and Gift Ideas? Visit our Recycled Art Gallery.

It's a great place to find unique gift items and craft ideas for do-it-yourselfers. Now is a good time to bring us your recycled consignment items, as our gallery booms during the holiday season. And, our staff loves seeing all your unique and artistic crafts.

Remember to get your donations to us before the end of the year to take advantage of the tax deduction.

Enter Our Contest...

Believe it or not, some people still don't get the whole recycling concept. Over our 8 wonderful years of doing business, Heartwood has recycled a lot of material that would otherwise have been disposed of in our local landfill. Our Art Gallery is a great place to show Douglas County residents many unique ways to recycle.

To celebrate our success, we're holding a contest for the most creative and unique recycled art products and remodel projects done with items purchased at Heartwood. Winners for the most creative, oddest, and best budgeted projects will be announced on our bulletin board in our store and on our Web site and will receive **\$15** gift certificates.

We often hear about your projects, now here's your chance to show everyone how you brought new life and usefulness to recycled materials. It's always fun to see what people create with reclaimed hardwood flooring, bowling lanes, kitchen remodels, and many of the other items found in our store. Not to mention the \$\$\$ saved and the benefit to our environment. Bring your photos into our store or e-mail them to mzoeter@umpquacdc.org.

We look forward to seeing you soon.

Marla Zoeter

Assistant Store Manager
